Section 3: Trainer Thinking Test - 10 points

Read the story carefully. Then answer the questions. A smart Trainer reads twice!

Alex and the Lost Eevee

One sunny morning, Trainer Alex packed her bag for an adventure. She packed **6 berries, 4 Poke Balls, and 1 map**.

On the forest path, Alex heard a soft cry. A little **Eevee was lost!** Eevee missed its friends - Pikachu, Charmander, and Squirtle - who were waiting by the big oak tree.

Alex was kind. She gave Eevee **2 of her berries** to eat. Then she looked at her map and counted the steps: **10 steps to the river, then 10 more steps to the oak tree**.

At the oak tree, Eevee's friends cheered! Pikachu sparked with joy. Alex smiled. *"A great Trainer is kind, brave, and always counts her supplies,"* she said.

How many Poke Balls? _____ How many stars? _____ How many berries (the word BERRY)? _____
Total in all? _____

STAR BONUS 3. Invent Your Own Pokemon!

4. Gym (bonus)	Maze: any path from START to FINISH without crossing walls. Counting: 4 Poke Balls, 3 stars, 2 berries (words), total 9. Invent-a-Pokemon: no wrong answers - praise name, type, move, and sentences.

Word search locations: PIKACHU row 1 across; TRAINER row 2 across (starts column 2); BATTLE row 3 across; BADGE row 4 across (starts column 3); BERRY row 5 across; POKEBALL row 6 across; CHARM down column 9, rows 4-8; EEEVEE down column 10, rows 4-8.
